

BREEZ

1025 Electric Transport Chair

MAXIMIZE TRAVELER SAFETY AND COMFORT WITH THE BREEZ ELECTRIC TRANSPORT CHAIR.

IDEAL FOR:

- Airports
- Train Stations
- Bus Terminals
- Theme Parks
- Convention Centers
- Stadiums
- Theatres
- Hospitals

The BREEZ electric transport chair, from EZ-International, is perfect for transporting mobility impaired individuals safely and comfortably, without the normal exertion associated with manual wheelchairs. With its dependable drive system and easy-to-operate controls, the versatile BREEZ can easily transport a person up to 750 pounds (340 kg) with a simple pull of the finger on the control lever. Safety features like an optional flashing yellow safety light, automotive-style lap belt, anti-rollback, anti-tip and emergency stop button make this chair a safer alternative to manual transport. Capable of traveling up to 22 miles (35 kilometers) on a single charge, the BREEZ comes equipped with ample storage space for personal belongings, a garment bag pole, flip-up armrests and swing-away style footrests making it the ideal transport chair no airline or airport should be without.
